

homedigital | surveillance

- Sends a high-quality live audio/video stream to your network wirelessly over 802.11g – viewable from anywhere.
- Built-in stand-alone web server, no PC necessary
- Security mode automatically sends email alerts with video clips upon motion detection
- Supports up to four simultaneous remote users
- The internet video camera's unique form-factor and wireless connectivity allows you to mount it on a wall nearly anywhere
- You can also turn on security mode, which tells the camera to send a message with a short video attached to up to 3 email addresses whenever it detects motion in its field of view.
